Hello everybody, I have been designing

## Get Free Hydrofoils Design Build Fly

a hydrofoil lately and have tried to optimize it for the lift over drag ratio. Up to this point, I have only been designing the main wing. The requirements for the main wing is for it to have a wingspan of 1m and an area of  $0.1\text{m}^2$ . I have also designed it to have an elliptical lift distribution to minimize induced drag. The root cord is 12.7cm and I am ...
