securities that are rising and sell them when they look to have peaked. The goal is to work with volatility by finding buying...

Introduction to Momentum Trading - Investopedia

Although the concept of momentum is simple enough to grasp, many traders are thrown off when divergence comes into play. On most charts, a line pointing upward represents an increase in value. However, with momentum, an upward line reflects the speed of a price change. When analyzing a chart, remember: the price can increase while momentum drops.

How to Trade With the Momentum Indicator

Momentum is what day trading is all about. One of the most important things I realized as a beginner trader is that the only way to generate consistent profits is by finding stocks that are moving. If stocks aren't moving, we can't make money. As day traders we buy stocks with the intention of selling them at a higher price.
